**3. AGREEMENT TO COLLECT PROFIT FROM THE SALE OF MERCHANDISE**

Merch Connect offers a Markup option on all merchandise for sale on our website. Marking up products is optional. You can choose to sell your products at our base price.

This means you will not be entitled to or collecting any profits on sales of your products via Merch connect.

This option makes your products as cheap as possible for your customers, making them more likely to purchase. This is a method of free marketing and gives customers access to your merch without you doing anything at all.

By signing below and choosing "No" you are agreeing that you are not entitled to or will not be able to claim any profit from the sale of your merchandise on merch connect.

If you wish to collect profit from selling your merch via Merch Connect, you can choose to mark up your products. This is basically an amount per item you wish to add on top of our base selling price of your item. Profit on monthly sales will be paid into your listed bank account within the first few business days of the following month.

Reports from our online store merchant will be available on request.
